III. NEW BUSINESS

- PROPOSED AMENDMENT TO TOWN OF GATE CITY WATER POLICY SECTION V-WATER CHARGE FOR MULTIPLE HOOK-UPS ON ONE (1) METER AND SECTION XIV – SCHEDULE OF FEES AND CHARGES – TAP FEES.

Town Manager, J. Keller – Provides Council with an explanation that he was provided from Office Manager, Judy Guinn. Currently, as it is, the Town, is losing money on the multiple hook-ups with Council Member, Roger Cassell, inputting when this was implemented, the Town felt the it was losing money as well.

IV PUBLIC COMMENT

Debbie Kindle – Discusses the billing rate changes from past and the adoption date. She questions those property owners who have multiple users, but are not being charged the multiple user fees. States increase in fee would present a hardship and the landlord should come in to Town Hall, but there is
only a few that will come in advising they are a double user. She advises of a list she provided Town Hall of those that were double users.

**Vice Mayor, A. Roberts** – Questions how are we losing money when water is going through the meter and we are charging for the water with Council Member, R. Cassell explaining if you had separate meters, you would have two minimums.

**Debbie Kindle** – Discusses how she is a multiple user with her home and cottage she rents out since 2003. She doesn’t have a problem, but wants it to be fair.

**Mayor Perry** – Explains the problem as having single meters with multiple users and if every user had a single meter there would be no question as to everybody paid.

**Vice Mayor, A. Roberts** understands a trailer park with one meter furnishing 15 trailers, but states he owns one building and questions why he would have to pay two different bills when he has one water bill coming to him. He doesn’t feel it is right.

**Council Member, W.W. Ross, Jr.** – Questions Ms. Kindle if she had prior notice in the paper about this.

**Council Member, R. Cassell** – Asks if this will increase sewer rates with Town Clerk explaining the fee is an additional fee, not a double fee. Explaining it will be a minimal fee based on the rates set by Council for the minimal fee on water, which is currently $23.00 with Town Attorney, M. Brooks reading from the Water Policy regarding fees.

**Mayor Perry** – Asks how we are losing money with Council Member, R. Cassell replying we are not losing money, we’re just not making money, just losing that minimum.

**Mayor Perry** – Asks if Town Manager would like to explain the reason for revision for Section XIV.

**Town Manager, J. Keller** – Provides the reason for this request as being the Methodist Church did another hook-up with a total bill to the town being about $4,500.00 in materials, not including labor. Per policy, the commercial water tap fee is $2,500.00 for the intention to cover town’s costs, including labor.

**Vice Mayor, A. Roberts** – Questions the tap procedures for a new meter, reads the proposed revision to the Water policy, “prices listed, $650.00 Residential ¾” and $2,500.00 Commercial 2”, will be the minimum fee. A final total will be submitted to property owner based on total materials and labor” asking if it would be calculated in with Town Manager, J. Keller replying yes.

**Council Member, R. Richards** – Asks the date this would take effect with Mayor Perry informing her it would be immediate after it has been adopted.

**Council Member, W. W. Ross, Jr.** – Suggests tabling for further discussion.

VI. PROCLAMATIONS, CONGRATULATORY RESOLUTIONS, AWARDS, APPOINTMENTS, RESIGNATIONS AND CONFIRMATIONS, ADMINISTRATION OF OATHS AND INTRODUCTION OF GUESTS.

Steve Buston, VDOT – He introduces himself and addresses questions/issues that were presented prior to the meeting.

1. Trucks coming through the town – he will follow up on redirecting trucks on Jackson Street with signage or US 23 be designated a truck route.

2. Crosswalks/Pedestrian traffic – There will be a crosswalk painted on Jackson Street at the Courthouse before the cold weather. The crosswalk at the Town office will not be put in without running it into someone’s entrance. Discusses other crosswalks in town, but they are not hatched (painted with diagonal hatch lines). Will check to see if that can be done, to make it more visible. Mayor Perry asks for crosswalk to be placed at the library. Council Member, W. W. Ross, Jr. asks about possibility for stop light with the pedestrian figure like Bristol with Mr. Buston saying probably not, these streets are maintained by VDOT and Bristol maintains streets under the City of Bristol. He is not for sure, but he will check into it.

3. Speed of Traffic – Feels that is a speed enforcement issue. Vice-Mayor, A. Roberts asks who regulates the speed limits. VDOT sets speeds on roads, but a speed study needs to be done before action can be done and explains what a speed study is. Vice-Mayor, A. Roberts
addresses crossing the street at Jackson and Kane, with cars making a right turn, not knowing when to walk/don’t walk and asks who would put up the sign, the town or VDOT with Mr. Buston responding, it would probably be VDOT and will get back to Council on that.

4. **Make sidewalks wider for green areas** – Discusses Jackson Street is a wide street and would have areas where the sidewalk could be widened with parallel parking. Placing tables off the sidewalk would not be permitted, but if sidewalk is widened, the tables could be placed there, as long as there was a barrier between traffic and the sidewalk, but would be a big expense. Refers to Town of Marion regarding their receipt of enhancement money to increase their green space. Mayor Perry questions if sidewalk was widened in front of The Family Bakery, we could do that with Mr. Buston replying he thinks we could with permit, but would need to see a sketch of what you want. Council Member, R. Cassell questions the same proposal presented earlier about The Family Bakery and it was turned down with Mr. Buston responding it wasn’t to widen the sidewalk, just placing tables up with no barrier, but will look at it. Council Member, W. W. Ross, Jr. – Questions the condition of sidewalk on Manville Road with Mr. Buston responding VDOT will tell the Town it is the Town’s responsibility. He informs Council of a revenue sharing program for cities, towns and counties and possibly working with the county to request the money.

5. **Mowing reimbursement** – Mowing is done by contract to low bidder and it would not be possible to pay the Town. Mayor Perry asks how the Town can get the state roads in our city limits on the mowing list so contractors will come in and mow them with Mr. Buston responding he would check it out with his maintenance department and that it would be just twice a year as a reference. Council Member, W.W. Ross, Jr. – Discusses the high grass on Manville Road with Mr. Buston providing the call center 1-800-367-ROAD for maintenance concerns to be logged and will alert them this was discussed.

**Mayor Perry** – Informs Mr. Buston 3-4 years ago streets were flagged to be paved, but only a portion were done and questions when they will be done with Mr. Buston informing Council of a list of roads that will be paved next summer. Discusses the roads at the water line construction to be placed on list for paving next year and will see about getting a copy of the list. He also advises between now and next summer of possible budget cuts.

**Vice Mayor, A. Roberts** – Asks if VDOT owns the building beside the Smith Electric Contractors (L&S Motors) going towards Weber City citing the condition of the building with Mr. Buston stating yes. Vice Mayor, A. Roberts, describes the condition of the building asking when will it be demolished. Mr. Buston states he will be back in touch with his findings.
