VIII. REPORTS

A. Manager

- Ron Bostic has finished the 2006-2007 audit. They have asked to go ahead and begin working on the 2007-2008 audit.
- There has been $121,862 collected in business licenses fees with $6,000 outstanding. 15 businesses have not submitted the proper paperwork. Over $14,000 has been collected in delinquent property taxes so far.
- The October deadline for the various grant assignments is nearing. Lenowisco does not want to be responsible for the entire grant administration but will be glad to administer the parts with which they have experience.
- There were no bidders on the Grogan Park Expansion Project. The project will be re-advertised for bids in the Roanoke and Bristol papers.
- There were two bids for the Manville Water Extension Project. Both bids were higher than expected and it would not be beneficial for the town to take on this project at this price at the time.
- According to communication with the Scott County PSA the new sewer plant will be in operation in two to three weeks.
- Mr. Templeton has included a VDOT Resolution that needs to be voted on at tonight’s meeting. The purpose of this resolution is to update an existing resolution concerning water line installation. This has been approved by the Town attorney.
- AEP has requested three different rate increases. This would be a huge increase and blow to the Town’s budget. Mr. Templeton discussed the possibility of sending a letter to AEP pertaining to this issue.
- Civitan has requested putting a ceiling in one of the shelters at Grogan Park. They have offered to do this with no charge to the Town and are just requesting the Town’s permission.
• Rufus Hood has received a petition from citizens opposed to the Town’s proposed boundary adjustment. These citizens believe they won’t receive town services if this adjustment is made. The properties within the proposed area are already receiving water and are in a good place for sewer and garbage pick-up as well. Mr. Templeton will write a letter to the Slabtown citizens explaining the benefits of the adjustments and the Town’s point of view on the matter.

There were changes discussed at that month’s council meeting and members of the Water Committee were supposed to have met with Rhonda Stacey to get those changes into the Water Policy. Council Perry said they would try to look at the Water Policy in order to address the issue at the next meeting.

J. Park Committee

The issue with the bridges in the park application has been straightened out. The Park Committee has applied for a grant from Lowe’s.
