C. Public Works

D. Water Plant
Mrs. Cruby stated the water plant still has a huge water loss. She questioned the accuracy of the reporting within our billing system and suggested that the high loss numbers vs. the number of gallons she has pumped may be altered somehow by the software. All machinery at the water plant has been tested and seems to be working properly. She thinks maybe we can get our master meter calibrated.

IX. PUBLIC COMMENT

*Mayor Jenkins closed the Reports session and opened the Public Comment session.

A. WALLACE W. ROSS JR.: Questioned the council as to how priorities are set on determining the order in which items are processed on the list of active tasks. Mr. Ross stated that he has requested a survey be done regarding the street up at the church. Mayor Jenkins advised that the survey has been completed and the street runs through the corner of the church and that if the street is reopened the church would be in the middle of the street as well as the road would not be able to be turned into a parking lot. Mr. Ross said his main concern with opening the street was safety concerns. Mayor Jenkins stated that the town manager will set up a time to meet and discuss this issue with Mr. Ross and a copy of the new survey will also be sent to Mr. Ross. Mr. Templeton stated to Mr. Ross that issues are dealt with as to what urgency it was and available funding.

B. RICHARD HUBBARD: Stated that the codification committee cannot meet and continue to review the current town ordinances until the office staff at the town hall continues to type up the old existing ordinance book. He asked Council Coates if new members of the Planning Commission could be given a CD copy of the Comprehensive Plan and the Revitalization Plan.

C. DEBBIE KINDLE: Mrs. Kindle asked if the two month grace period for delinquent water bills will still be in effect if the new water policy is passed. She asked if the town was picking and choosing who would be doubled or not based on the number of tenants in a building. Mr. Templeton advised Mrs. Kindle that as we become aware of a residence or business that has more than one service using the water at a location the
Town will then begin to bill them correctly. After much discussion it was decided that the new policy eliminates the two month grace period for delinquent bills. Mrs. Kindle suggested we also come up with a set date to have everyone sign a new user agreement.

D. JUDY SUMMEY: Wanted to discuss her mother’s water account. The account is in the name of Blanche Hammonds. Mrs. Summey stated that they have several months of large water bills. Mr. Templeton had requested the previous month that the public works department replace the meter. After the one month of the meter being replaced the usage went down. Mr. Jenkins advised he would discuss with the Water Department.
